---

Education

Language - English: Native

Opole University of Technology (Expected February 2027)

Faculty of Electrical Engineering
- Bachelor's Degree in Computer Engineering
- Relevant Courses: Data structures and algorithms, Software Development, Object-Oriented Programming, Web Technologies, Computer Architecture

---

Technical Skills

- Programming Languages: C++, C#, JavaScript
- Web Development: HTML, CSS, Bootstrap
- Tools & Frameworks: GitHub, Visual Studio, Visual Studio Code

---

Soft Skills
- Team player, problem solving, communication skills, adaptability, critical thinker and flexibility

---

Projects

Inventory Management System

- Developed in C++ using OOP principles and vectors.
- Enabled efficient inventory handling with features like item addition, deletion, and sorting.

Weather Simulator

- Created in C# to simulate dynamic weather patterns using loops and arrays.
- Included temperature, wind, and precipitation modeling.

Full-Stack Shopping Cart

- Built a shopping cart using HTML, Bootstrap, CSS, JavaScript, and jQuery.
- Implemented product addition, quantity updates, and real-time price calculations.

Certifications

- Introduction to C++ Programming (2024)
- Complete Web Development Boot camp - 21 weeks (2023)
